SAFETY INSTRUCTIONS FOR THE "HUMIDIFIER" CATEGORY

1. Introduction

This document outlines the safety guidelines and proper use of products in the **"Humidifier"** category. This includes items such as **air humidifiers, humidifying systems, filter cartridges, mist nozzles, and humidifier accessories**. Following these guidelines ensures user safety and efficient operation of the devices.

2. General Safety Guidelines

- Store **humidifiers** in a dry, cool place, away from heat sources and excessive moisture.
- Ensure the device is connected to the correct power source as specified by the manufacturer.
- **Do not use damaged devices or power cords** – they can pose a safety risk.

- Regularly replace the water in the tank with fresh water to prevent bacterial and mold growth.
 - Use only the water recommended by the manufacturer – avoiding hard water will extend the device's lifespan.
 - Keep humidifiers out of reach of children and pets.
-

3. Precautions During Use

- **Filling the Device** – Turn off and unplug the device before filling it with water.
 - **Overheating Prevention** – Do not cover the device or block its ventilation openings.
 - **Cleaning and Maintenance** – Regularly clean the tank and nozzles to prevent limescale and dirt buildup.
 - **Electrical Safety** – Ensure the device is connected to the power supply with dry hands.
 - **Placement** – Place the humidifier on a stable surface, away from flammable materials.
-

4. Maintenance and Storage

- Regularly clean the device following the manufacturer's instructions using mild detergents.
 - Empty the water tank if the device will not be used for an extended period.
 - Replace filters and other consumable parts according to the schedule provided by the manufacturer.
 - Store the humidifier in its original packaging or a dry location to prevent mechanical damage.
-

5. Emergency Procedures

- In case of water leakage, immediately disconnect the device from the power source and clean the surrounding area.
 - If the device emits a strange smell or smoke, stop using it immediately and contact a service center.
 - Replace damaged components only with original parts recommended by the manufacturer.
 - In case of electric shock, provide first aid immediately and seek medical assistance.
-

Final Remarks

Following these guidelines ensures safe and effective use of humidifiers and humidifying accessories. Regularly inspect the device's technical condition and perform proper maintenance.

Safety First!
