# SAFETY INSTRUCTIONS FOR THE "POT" CATEGORY

## 1. Introduction

This document outlines the safety guidelines and proper use of products in the "Pot" category. This includes items such as **plastic pots, ceramic pots, decorative planters, pot saucers, and pot systems**. Following these guidelines ensures user safety and long-lasting product use.

---

## 2. General Safety Guidelines

- Store **pots and accessories** in a dry place, away from extreme temperatures and moisture sources.
- Before use, ensure that pots are clean and free of damage, such as cracks or chips.
- Do not overload pots beyond their recommended capacity to prevent breakage.
- **Pot saucers** should be placed securely to prevent water spills and surface damage.
- **Ceramic and glass pots** should be handled carefully to avoid breakage and injury.
- Keep pots away from children if they contain sharp edges or are prone to breaking.

- Ensure pots used outdoors are weather-resistant and placed on stable surfaces.
- 

## General Precautions

- **Maintaining Cleanliness** – Regularly clean pots and saucers to prevent mold and bacteria buildup.
  - **Avoid Modifications** – Do not attempt to repair broken pots, as they may become unsafe for use.
  - **Stable Placement** – Place pots on stable surfaces to avoid tipping over and damaging plants.
  - **Surface Protection** – Use saucers or protective mats to prevent water or moisture damage to surfaces.
  - **Careful Handling** – Pots with plants can be heavy; lift them carefully to avoid injury.
- 

## 3. Safety for Plastic Pots

- Avoid exposing plastic pots to prolonged UV light, as this may cause them to crack or deteriorate.
  - Do not overload pots or use them as temporary containers for heavy items.
  - Regularly check the condition of plastic pots and replace any that are damaged.
- 

## 4. Safety for Ceramic and Glass Pots

- Handle ceramic and glass pots with care to avoid breakage.
  - Do not use damaged pots, as sharp edges can cause injury.
  - Ceramic pots can be heavy – always lift them with both hands.
- 

## 5. Safety for Saucers and Pot Systems

- Ensure saucers are appropriately sized to collect excess water effectively.
  - Regularly empty saucers to prevent mold and bacteria growth.
  - Check that pot systems function correctly and are not damaged.
- 

## 6. Maintenance and Inspection of Pots

- Clean pots and saucers regularly using mild detergents to remove soil and deposits.
  - Avoid using harsh chemicals that may damage pot surfaces.
  - Store pots in a dry location during winter to prevent frost damage.
  - Regularly check the condition of pots, especially those used outdoors.
- 

## 7. Emergency Procedures

- In case of broken ceramic or glass pots, immediately remove shards to prevent injury.
  - Replace damaged pots with new ones to ensure safe use.
  - If a pot causes surface damage, secure and repair the affected area accordingly.
- 

## Final Remarks

Following these guidelines ensures safe and effective use of pots and pot accessories. Take care of your safety and regularly inspect the condition of your products.

**Safety First!**
