# SAFETY INSTRUCTIONS FOR THE "CALIBRATION AND CLEANING SOLUTIONS" CATEGORY

## 1. Introduction

This document outlines the safety guidelines and proper use of products in the "**Calibration and Cleaning Solutions**" category. This includes items such as **calibration solutions, cleaning fluids, maintenance agents for measuring devices, and related accessories**. Following these guidelines ensures user safety and product effectiveness.

---

## 2. General Safety Guidelines

- Store **calibration and cleaning solutions** in their original, tightly sealed containers, away from heat sources and direct sunlight.
- Use products strictly as intended and according to the manufacturer's instructions.

- **Avoid contact with skin, eyes, and respiratory pathways** – solutions may be irritating or harmful.
  - Work in well-ventilated areas or use appropriate respiratory protection equipment.
  - Keep products out of reach of children and pets.
  - Never ingest or inhale vapors from the products.
- 

### 3. Personal Protective Equipment (PPE)

- **Eye Protection** – Use safety goggles to prevent accidental contact with eyes.
  - **Skin Protection** – Wear chemical-resistant protective gloves.
  - **Respiratory Protection** – Use filtered masks when working with large amounts of fluids or in poorly ventilated areas.
- 

### 4. Safe Handling of Products

- Open containers carefully to avoid spilling the liquid.
  - **Do not mix different solutions** unless explicitly recommended by the manufacturer.
  - In case of spills, clean immediately using absorbent materials and appropriate neutralizing agents.
  - Use dedicated tools and accessories for applying calibration and cleaning solutions.
- 

### 5. Maintenance and Storage

- Store solutions in their original containers, in cool, dry areas secured against unauthorized access.
  - Regularly inspect containers for damage – replace any damaged containers immediately.
  - Dispose of used containers and leftover solutions according to local chemical waste disposal regulations.
- 

### 6. Emergency Procedures

- **Skin Contact** – Rinse skin immediately with plenty of water and soap.
- **Eye Contact** – Flush eyes with running water for at least 15 minutes and contact a doctor.
- **Inhalation of Vapors** – Move the affected person to fresh air and keep them calm. Seek medical advice if necessary.

- **Ingestion** – Do not induce vomiting. Contact a doctor and provide product label information.
- 

## **Final Remarks**

Following these guidelines ensures safe and effective use of calibration and cleaning solutions. Use personal protective equipment and store products as recommended by the manufacturer.

**Safety First!**
