# SAFETY INSTRUCTIONS FOR THE "MATERIAL PRODUCTS" CATEGORY

## 1. Introduction

This document outlines the safety guidelines and proper use of products in the "**Material Products**" category. This includes items such as **fabrics, films, protective mats, bags, nets, and other materials used for protection, insulation, or construction purposes**. Following these guidelines ensures user safety and the long-term performance of the products.

---

## 2. General Safety Guidelines

- Store **material products** in a dry, cool, and well-ventilated area, away from heat sources and moisture.
- Before use, ensure materials are free from mechanical damage, mold, or other contaminants.

- **Avoid contact with open flames or high temperatures** unless the materials are specifically heat-resistant.
  - Use products strictly according to their intended purpose and the manufacturer's instructions.
  - Keep materials out of the reach of children and pets.
  - When cutting or processing materials, use appropriate personal protective equipment (PPE), such as gloves and safety goggles.
- 

### 3. Precautions During Use

- **Safe Cutting** – Use sharp tools carefully when trimming fabrics or films to avoid injuries.
  - **Installation and Application** – Ensure materials are securely mounted or properly spread over the designated surface.
  - **Avoid Overloading** – Do not exceed the mechanical load capacity of the materials.
  - **Health Protection** – Use dust masks when working with dusty materials, such as insulation mats, to avoid inhaling particles.
  - **Safe Work Environment** – Work in a well-lit and ventilated area to ensure precision and prevent accidents.
- 

### 4. Maintenance and Storage

- Store materials in their original packaging to prevent contamination and mechanical damage.
  - Regularly inspect stored products and remove any that show signs of wear or damage.
  - For reusable materials, clean them according to the manufacturer's recommendations.
  - Avoid storing materials in damp or contaminated environments to prevent mold growth.
- 

### 5. Emergency Procedures

- **Material Fire** – In case of ignition, use appropriate fire extinguishers suitable for the material type.
- **Contact with Skin or Eyes** – In case of irritation, rinse the affected area thoroughly with water and seek medical advice.
- **Damaged Products** – Discontinue use of damaged materials and replace them with new ones.

- **Dust Inhalation** – If dust is inhaled, move to fresh air and consult a doctor if symptoms persist.
- 

## **Final Remarks**

Following these guidelines ensures safe and effective use of material products. Regularly inspect the technical condition of the materials and ensure proper storage and maintenance.

**Safety First!**
