SAFETY INSTRUCTIONS FOR THE "GENERAL" CATEGORY

1. Introduction

This document outlines the safety guidelines and proper use of products in the "**General**" category. It covers a broad range of products that do not fit into strictly defined categories. Following these guidelines ensures user safety and optimal product performance.

2. General Safety Guidelines

- Before first use, carefully read the user manual and the manufacturer's recommendations.
- Store products in a dry, clean place, away from heat sources, moisture, and direct sunlight.
- Regularly inspect the technical condition of products. If any damage is detected, discontinue use immediately.
- Do not use products for purposes other than those intended.

- Keep products out of reach of children and pets to avoid accidental use.
 - For products with electrical components, always disconnect the power supply before maintenance or assembly.
-

3. Precautions During Use

- **Safe Use** – Ensure products are placed securely and used according to their intended purpose.
 - **Damage Prevention** – Avoid overloading products or using excessive force during operation.
 - **Cleaning** – Clean products with a soft cloth and mild cleaning agent, avoiding abrasive materials and harsh chemicals.
 - **Work Safety** – Use appropriate personal protective equipment (PPE) when required during product use.
-

4. Maintenance and Storage

- Regularly inspect the technical condition of products and their components.
 - Store products in original packaging or protected locations to prevent dust, moisture, and mechanical damage.
 - Replace damaged components with original parts as recommended by the manufacturer.
 - Avoid prolonged exposure of products to adverse weather conditions.
-

5. Emergency Procedures

- If the product becomes damaged, immediately stop using it.
 - In case of electrical component failure, disconnect the power supply and contact a qualified technician.
 - Dispose of damaged or worn-out components in accordance with local waste disposal regulations.
 - In case of injury caused by product use, provide first aid and contact emergency medical services.
-

Final Remarks

Following these guidelines ensures safe and effective use of general-purpose products. Regularly inspect the technical condition of products and follow the manufacturer's recommendations to achieve maximum performance and long-lasting use.

Safety First!
